

1. Thoughts are wonders text, animation and sound by Kراسي Dimtch
HD audio-video, H.264, 25 fps, duration 2 min.

Thoughts are wonders is HD video composed of spoken words, musical motifs, animations and moving images differently representing human thoughts *on the road to non-existence where targets titter in their coffins, and setbacks pose as aims, while triumphs and pleasures leave no traces and death is non-existent*. The video is based on the thesauri poem* *"Thoughts are wonders"* by Kراسي Dimtch. The text of the poem has been digitally transformed into spoken words and sequences of musical motifs representing them using Speechelo and Audacity, as well as custom software for generating sentences and representing them as sequences of sounds. The animations have been created using Photoshop and Cartoon animator, as well as custom software for generating sentences and representing them as images.

* A thesauri poem is composed of words found in a sequence of words built with the help of a Dictionary of synonyms (Thesaurus). For example, "setbacks pose as aims" can be found in the sequence: **death syn. (setback & grave) syn. (pose as & goal) syn. aim**. *Introduction to Thesauri Prose and Poetry by Kراسي Dimtch © 2013*

2. In the house of thoughts text, animation and sound by Kراسي Dimtch
HD audio-video, H.264, 25 fps, duration 40 sec.

In the house of thoughts is short video composed of spoken words, musical motifs, animations and moving images differently representing the text of the thesauri poem* *"In the house of thoughts"* by Kراسي Dimtch. The poem has been digitally transformed into spoken words and sequences of musical motifs representing them using Speechelo and Audacity, as well as custom software for generating sentences and representing them as sequences of sounds. The animations have been created using Photoshop and Cartoon animator, as well as custom software for generating sentences and representing them as images.

3. Mind > Body, composition of 9 digital prints on aluminium, 90 cm by 90 cm, 2019

Each print represents a letter or a mathematical symbol used in the semantic inequality Mind Body

* A semantic inequality is statement which makes a non-equal comparison between two verbal expressions.

4. Here + Now = Present, 16 digital prints on aluminium, 120 cm by 120 cm, 2019

Each print represents a letter or a mathematical symbol used in the semantic equation *Here + Now = Present*.

* A semantic equation is a statement of the equality or equivalence of two poly-verbalexpressions.

5. Every letter is a sound. Sound object, Monitor, computer, custom software for transforming sentences into sequences of musical loops, fragment demonstrating how the sentence "reality is absurd" can be transformed into sequences of musical motifs.

Every letter is a sound demonstrates how thoughts that have been put in words can be transformed into sequences of non-speech sounds and experienced as musical abstractions.
